

PRO-SPRAY®

Meet the strongest, most versatile spray body in the industry.

Install the Best with the Strongest Spray Body

Ensure long-lasting, leak-free performance with a chemical- and chlorine-resistant wiper seal, even with a loose cap.

Save Water with Pressure Regulation

EPA WaterSense Certified Pro-Spray PRS30 and PRS40 maximize the efficiency from spray and MP Rotator nozzles.

Technology to Stop Water Waste

Prevent erosion and water waste in the event of a missing nozzle with FloGuard™ technology.

Minimize Inventory with Interchangeable Parts

Make servicing and retrofits a breeze with a common body, wiper seal, and cap design.

Optional Check Valve

Stop runoff with a field- or factory-installed check valve.

IN THE FIELD

Issue: Spray body caps loosen over time due to temperature changes and foot traffic. This means more leaks and more service calls.

Solution: The Pro-Spray wiper seal and cap design prevents leaks with even a full turn of the body cap, resulting in fewer complaints and more time for other jobs.

Competitor with loose cap.

Hunter with loose cap.

Issue: When flushing the line, water gets everywhere, from the sidewalk to my customer's windows.

Solution: For easier clean-up, direct flow into the landscape with Pro-Spray's innovative directional flush plug when flushing the system.

IN THE DESIGN OFFICE

- Have confidence in your design with the first EPA WaterSense Certified pressure-regulated spray body.
- Decrease demand on the system with the low flow-by, chlorine- and chemical-resistant wiper seal.
- Protect the landscape with FloGuard technology, which saves water and signifies the need for maintenance.

Speed up on-site walk-throughs and approvals with color-coded caps for pressure regulation and reclaimed water applications.

SPRAY BODY COMPARISON

FEATURES	Hunter Pro-Spray	Competitor 1	Competitor 2
Average body burst pressure	PSI	PSI	PSI
No body cap leaks	450° cap turn	10° cap turn	10° cap turn
Pressure rating	15 to 100 PSI	15 to 100 PSI	20 to 75 PSI
Same body across all models	●		●
Field-installable check valve	●		●
Common chemical- and chlorine-resistant wiper seal	●		●
Directional flush plug	●		
Accepts popular female-threaded nozzles	●	●
