

X2™ CONTROLLER AND WAND WI-FI MODULE

The professional's choice for cost-sensitive projects requiring 14 zones or fewer

KEY BENEFITS

Contractor Management System

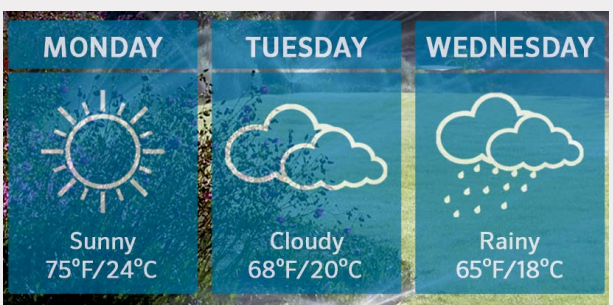

Hydrawise™ Software provides the ultimate irrigation and customer management solution with no site visits required.

Try Hydrawise Software today, hardware-free at hydrawise.com.

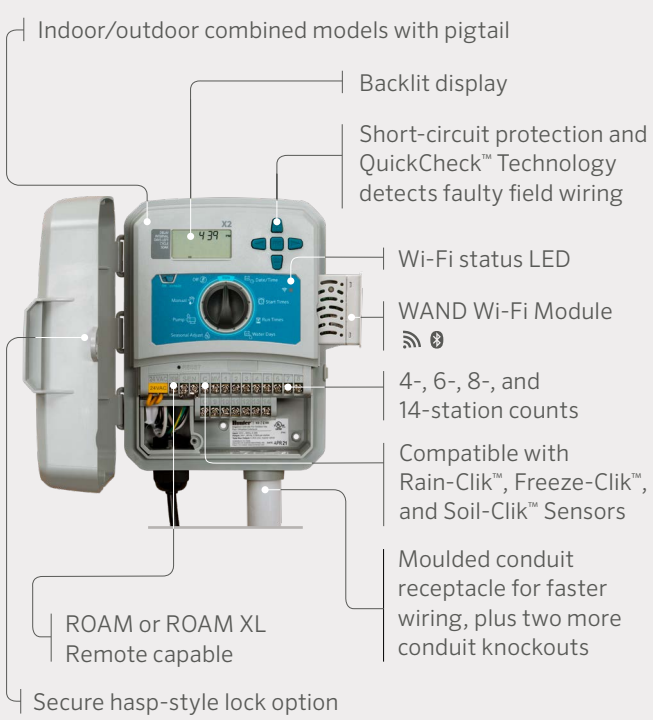

Proven Water Saver with Predictive Watering™ Technology

Hydrawise Software combines cloud-based weather adjustments with virtual Solar Sync™ Sensor daily ET measurements from weather stations for water savings up to 50% vs. a non-adjusted controller.

Entry-Level Smart Solution

Convert the dial-based X2 into a smart controller with the WAND Wi-Fi Module.

Smart Home Voice Control

The controller is fully compatible with Amazon Alexa™, Control4®, and HomeSeer® home automation systems.

hunter.info/X2EM

IN THE FIELD

- Challenge:** Newly constructed homes typically lack on-site Wi-Fi access until the homeowner moves in, rendering Wi-Fi controllers impractical.

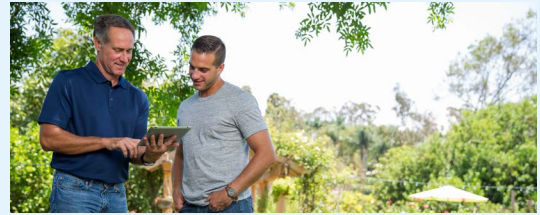

Solution: The standalone X2 Controller can be converted to a smart controller by adding a WAND Bluetooth Wi-Fi Module at any time.
- Challenge:** Tract housing developments typically feature identical landscapes, so irrigation schedules are all the same.

Solution: Minimise setup time by using the WAND Bluetooth Wi-Fi Module to program a schedule once. Then insert it into any X2 Controller to transfer the full irrigation schedule in seconds with our Rapid Programming™ Technology.

IN THE DESIGN OFFICE

- Access the event log for a clear picture of controller activity, such as faulty wiring issues, program changes, and watering events.
- Save time at the jobsite by attaching your site plans to the controller. This allows you to quickly locate piping and valves.
- Compatible with HindSite® Software for customer alerts, marketing, and billing management. Learn more at hunter.info/hindsite.

Want separate user accounts?

A Hydrowise Software subscription plan lets you add multiple users to your account. Administrative controls allow you to customise viewing access and prevent users from making changes.

X2 CONTROLLER COMPARISON

FEATURES		X2 & WAND	Competitor 1	Competitor 2
CONTROLLER	Station options	4, 6, 8, 14	4, 6, 8, 12	6, 12
